

To the generous sponsors and future partners of our **Oasis Haiti*** project,

We are so grateful for your donations. Thank you! We are humbled by your response and desire to help. As you may know, Haiti is the poorest country in our hemisphere, victim of natural disasters (earthquakes, hurricanes, flooding), and is now facing a serious political and economic crisis. What you give makes a difference.

Your generosity inspires courage, hope and opportunity to beautiful Haitians who are facing continual life challenges. Besides the care and effort to provide orphans and underprivileged children with food and quality education, **Oasis Haiti** continues to grow. It has a profound impact in the local community, acknowledged by the mayor of Les Cayes himself!

After only 4 years of existence, what emerged from a humble, yet faithful beginning is outstanding. Only God who gives us wealth, vision and leadership, can be glorified. These are a few highlights that have been done recently:

- Fully-operational orphanage that can host up to 30 kids
- Quality education and two hot meals per day for 75 underprivileged kids
- Provided 22 full-time jobs and a microloans program helping more than 130 people
- Free medical clinics, distribution of water filters and food support to more than 150 families
- Installed a solar panel system to provide reliable, clean, inexpensive & self-sustaining electricity
- Constructed a few latrines in the community and rebuilt the homes of some single moms
- Built a chicken coop (to provide more protein for their meals) and a large garden to grow vegetables

We are committed long-term: it's the only way to really bring progress in a country like Haiti. For this reason, we are looking for new partners to take our project to the next level with these few goals in mind:

- A new water filtering system for many children and families in our community
- Constructing two additional classrooms, a library and a medical clinic
- Buying a 15-passenger school bus
- Developing and growing our agriculture and livestock in order to provide in a sustainable manner

No contribution is insignificant when we all come together like we have done since the first day!

With the deepest gratitude,
Danny Brisebois, Executive Director
